OF
NEW AND RARE
PLANTS.
1883.

16 ♦ South ♦ Market ♦ Street, ♦ Boston, ♦ Mass.

TO OUR FRIENDS AND PURCHASERS.

IN presenting our FORTY-NINTH Annual Catalogue, for 1883, we deem it only necessary to call the attention of our large circle of friends to the long period we have had the pleasure of dealing with them, and to solicit a continuance of these pleasant relations. Our aim will be, as heretofore, to offer all the new and valuable plants, whether of our own growth or introduced from abroad. Our success in the award of hundreds of premiums for our numerous exhibitions of rare plants is the best guarantee of our efforts to render our collection complete in every department.

Orders for Plants and Seeds.—We send plants or seeds either by mail or express, but we do not advise sending plants by mail only where there is no express office. We can send much larger, better, and stronger plants by express, which are sure to give satisfaction, and we add enough gratis to pay the express charges. Purchasers will find it for their interest to leave the selection to us, as it is often difficult to judge of the merit of varieties by descriptions.

Packing.—No charge is made for boxes, baskets, or packages (except in extra large specimens), and all packages are delivered in Boston free of charge. Our mode of packing is such that we can forward plants safely at all seasons of the year, without regard to cold or heat.

Our Gardens in Cambridge are only two miles from the city, within twenty-five minutes' time by horse cars from Scollay Square, Boston.

Plants and Seeds.—As our business includes both seeds and plants, as well as fruit and ornamental trees, shrubs, vines, etc., orders for both may be sent together, and additional express charges saved.

The Safe Arrival of Plants, seeds or bulbs by mail or express in good condition we guarantee. All complaints, however, should be made immediately on the receipt of the packages. Plants or seeds by freight are at the risk of the purchaser.

How to Send Money.—Remittances may be made either by Draft, Post-Office Order, or Registered Letter. But in no case should bills be sent in a letter unless registered. Stamps may be sent when the amount is less than one dollar.

Name and Address.—Don't forget to give your post-office address and State, distinctly written.

HOVEY & CO.,
16 South Market Street, Boston.

Our fall Catalogue of Bulbs will be ready in September, and will be mailed free to all who apply.

NEW AND RARE PLANTS

FOR 1883.

ABUTILON FIREFLY.

A new and very handsome variety, with orange-crimson flowers, with a glossy surface, dwarf, compact and free flowering.

30c. each; \$3.00 per dozen.

NEW GOLDEN ALTERNANTHERA.

One of the greatest acquisitions to our bedding plants; supplying just what was wanting, — a golden-leaved plant of dwarf, compact habit and free growth. This new *Alternanthera* has a robust and hardy constitution, with bright-yellow foliage, which color it retains throughout the season.

15c. each; \$1.50 per dozen.

ALTERNANTHERA PARONYCHOIDES MAJOR.

This brilliant-colored and beautiful variety is superior to all the older sorts for ribbon lines or edgings, its deep carmine, rose-tinted foliage holding its color throughout the season.

15c. each; \$1.50 per dozen.

ANDROMEDA JAPONICA.

One of the most beautiful of all the *Andromedas*; of neat, shrubby habit, and myrtle-like leaves, producing large racemes of pure white, waxy-looking, bell-shaped flowers.

75c. each.

ACHYRANTHES EMERSONI.

A great improvement on *Lindeni*; its dark-maroon leaves, being lighted up with a central band of rosy crimson, forms a most effective bed.

15c. each; \$1.50 per dozen.

ACHYRANTHES COLLINSII.

A new and distinct variety, with yellow, carmine, and green leaves; habit, compact and dwarf.

20c. each; \$2.00 per dozen.

AMPELOPSIS SEMPERVIRENS.

A new and beautiful variety, with finely cut, glossy foliage, evergreen, retaining its beauty the whole year. Its hardiness has not yet been tested, but it stands the climate of England unprotected. It is a fine plant for pot culture, and, if hardy, one of the most valuable acquisitions.

Plants, 50c. each; \$4.50 per dozen. Large plants, \$1.00 each.

ORNAMENTAL-LEAVED BEGONIAS.

These are entirely new and admirable varieties, selected in Paris, and much superior to the old kinds. The markings are new, novel, and distinct, and the variegation most remarkable.

Acuminata splendida.
Argentea Zebrina.
Comtesse de Thelluson.
Marquis de Naidallac.

Louise Chretien. Extra, 50c.
Michel Ange.
Quadrizonalis ornata.
Le Brun.

30c. each; \$3.00 per dozen.

TUBEROUS-ROOTED BEGONIA.

TUBEROUS-ROOTED BEGONIAS.

These new Begonias are becoming more and more popular, and among the most beautiful plants for bedding or for pot culture. They have been wonderfully improved, with immense flowers, as well as splendid double kinds. They may be treated almost precisely like the *Gladolus*, planted out in May and taken up before frost, and wintered in the house; as pot plants, they require the same treatment as *Geraniums*.

SINGLE VARIETIES.

Etna. Brilliant fiery-scarlet.
Mentor. Carmine-rose.
Vesuvius. Large scarlet.
Worthiana. Scarlet.
 50c. each.

DOUBLE VARIETIES.

Anemone flora plena. Rose color, large.
Argus. Clear vermilion.
Ornament. Soft rose.
Salmonia plena. Rosy salmon.
 \$1.00 each.

BEGONIA, LOUISE CHRETIEN.

An entirely new and beautiful break in the Begonia, which we introduced from Paris two years ago. The leaves are bronze color, with a rose centre, and edged with crimson. The central blotch has a rich metallic gloss, particularly attractive, and distinct from any of the Begonias.

50c. each; \$4.50 per dozen.

NEW DOUBLE WHITE BOUVARDIA, "ALFRED NEUNER."

A new and very handsome double variety of the well-known White Bouvardia, of which it is probably a sport. Each flower is quite double in the way of the Tuberose. It has proved an invaluable plant for florists, as the flowers remain in perfection a long time after being cut.

25c. each; \$2.50 per dozen. Strong, large plants, 50c. each.

NEW DOUBLE PINK BOUVARDIA, "PRESIDENT GARFIELD."

A new variety introduced last spring. It is precisely the same as the double white, except in the color of the flowers, which are of a most delicate pink. It is a decided acquisition, and very valuable for florists.

Plants, 50c. each; \$4.50 per dozen. Large size, \$1.00 each.

BOUVARDIA ROSEA MULTIFLORA.

Another new variety, something in the way of Lady Hyslop, but with larger trusses, of large pink flowers. A very fine variety.

Plants, 30c. each; \$3.00 per dozen.

BOUGAINVILLEA GLABRA.

A free-blooming and very beautiful species, with small foliage, and more slender habit than *B. Spectabilis*. Flowers abundantly nearly all the year.

50c. each. Larger size, \$1.00 each.

NEW YELLOW CALLA (RICHARDIA HASTATA).

A new, novel, and handsome Calla, with yellow flowers, having a dark purple centre. It was introduced a few years ago, but it is still very rare. It will prove a valuable addition to collections, or for florists' use.

\$1.00 each.

NEW CAMELLIA, C. M. HOVEY.

This magnificent Camellia was awarded the gold medal of the Massachusetts Horticultural Society as the finest Scarlet Camellia. The flowers are very large, five inches in diameter, perfectly double to the centre; color rich crimson-scarlet.

\$1.00 each; \$10.00 per dozen.

NEW CAMELLIA, C. H. HOVEY.

Entirely new in color, — a rich, dark, maroon-crimson, like Gen. Jacqueminot rose. Form perfect; petals round, symmetrical, without notch on the edge, remarkably deep, and imbricated to the centre. Habit beautiful, vigorous, deep-green foliage.

\$1.50 each; \$12.00 per dozen.

CAMELLIA, MRS. ANNE MARIE HOVEY.

This lovely variety has been awarded the prize of \$60.00 by the Massachusetts Horticultural Society as the finest new seedling Camellia. This Camellia surpasses in every quality all other varieties yet produced; producing flowers of MANY DIFFERENT COLORS on the same plant. The prevailing color is a clear, waxy-white, delicately pencilled with crimson; but often a great number are of the richest carmine. Some are of the deepest blush, others blush, striped with carmine.

\$1.00 each; \$10.00 per dozen. Large plants, \$5.00 to \$10.00 each.

CANNA EHREMANII.

A new and splendid variety of the *C. Iridiflora*, but with flowers much larger, and of a richer and deeper crimson, produced on tall showy spikes. It is one of the greatest acquisitions, either for the flower garden or greenhouse, blooming the whole winter. It is of medium height, with very large and handsome foliage.

75c. each; \$7.50 per dozen.

NEW EARLY FLOWERING CHRYSANTHEMUMS.

They are highly desirable varieties, blooming generally before frost, and adding to the beauty of the flower garden. They are dwarf and most profuse flowerers.

Early Cassy. Light-tipped lilac.	Madame Pecoul. Rosy purple.
Golden Madame Domage. Yellow.	Madame Dufoy. White.
Gold Button. Golden yellow.	Precoceite. Bright yellow.
30c. each; \$3.00 per dozen.	

NEW JAPANESE CHRYSANTHEMUMS.

New and magnificent varieties, of this showy group.

Bouquet National. White.	L'Lilliput. Deep gold orange.
Constance. Deep crimson, gold-tipped.	Rose Mignonne. Rose striped white.
Dr. Macary. White tinted rose.	Sonce d'Or. Golden-tinted florets.
Juvena. Very dark and striking variety.	
30c. each; \$3.00 per dozen.	

NEW CHRYSANTHEMUM, GOLDEN MADAME MARTHA.

This is said to be the finest yellow pomphone chrysanthemum yet introduced.
50c. each.

NEW GOLDEN MARGUERITE, ETOILE D'OR.

Probably no plant of recent introduction has attracted more attention than the yellow Marguerite; the peculiar soft yellow of its large spreading blossoms being almost entirely new. In addition to this, it is almost a perpetual bloomer; and is admirably adapted for summer decoration of the garden, or winter decoration of the greenhouse, blooming continuously the whole year. It grows from one to two feet high, compact, and bushy.

30c. each; \$3.00 per dozen.

**NEW WHITE MARGUERITE OR "PARIS DAISY,"
MADAME FARFILLON.**

This is a new and greatly improved variety of the French Marguerite, or Paris Daisy; much larger, purer white, and far more beautiful than the old *C. frutescens*. We have cultivated it extensively the last year for cut flowers, and bedding out.

25c. each; \$2.25 per dozen.

NEW WHITE AND GOLDEN MARGUERITE, MADAME.

A new and remarkable variety with pure white flowers, having a large golden centre. It has received a first-class certificate of the Royal Horticultural Society, of London, as one of the finest of the Paris Daisies.

50c. each; \$4.50 per dozen. Large plants, \$1.00 each.

NEW CEREUS, ALICE WILSON.

This is an entirely new and beautiful striped flowered Cereus. The flowers are large, about eight inches in diameter, of a brilliant scarlet, with a stripe of bright orange through the centre of each petal.

Young plants, 75c. each.

CEREUS, C. M. HOVEY.

This is one of the most superb varieties ever produced, the entire flower being of a clear blue-violet tint, with an extra row of petals, and eight inches in diameter. Received a first-class certificate from the Royal Horticultural Society, May, 1879.

75c. each; \$7.50 per dozen.

CISSUS RHOMBIA.

A greenhouse twining plant, with foliage similar in appearance to the Ampelopsis, but of a bronzy hue, and soft, velvety texture. Highly ornamental and elegant.
30c. each; \$3.00 per dozen.

NEW CARNATION, LADY EMMA.

A new dwarf, compact, free-flowering variety of a brilliant scarlet.
50c. each; \$4.50 per dozen.

CLERODENDRON SPECIOSUM.

A showy and superb plant, of the general habit of *C. Balfourii*, but in place of the white and scarlet flowers of that variety, it has entire scarlet blossoms in large clusters of great brilliancy.

50c. each.

CURCULIGO RECURVATA VARIEGATA.

A noble plant, of palm-like habit, producing an arching head of recurved, beautifully plaited leaves, two feet long and six inches broad, on stems fifteen inches in length. The leaves are green, conspicuously banded with clear white stripes. The richly variegated foliage renders this plant one of the most desirable and ornamental.

\$2.00 to \$5.00 each.

CLEMATIS COCCINEA.

Quite a novelty in the Clematis, having scarlet flowers, which make a decided contrast with the usual white and purplish tints. The flowers are small, but freely produced. It is quite hardy.

50c. each; \$4.50 per dozen.

NEW DRACÆNA TERMINALIS ALBA.

The finest addition recently made to this group of plants. It is precisely like *D. terminalis* in everything except color, the variegation being clear white in place of crimson. As a companion plant growing under the same treatment, it is invaluable.

\$1.00 each; large plants, \$2.00 each.

NEW DRACÆNA HARRISII.

Raised by Mr. Harris, gardener to H. H. Hunnewell. A fine variety, with green leaves beautifully edged with white. Leaves moderately broad.

\$1.00 each.

DRACÆNA GOLDIANA.

One of the most magnificent ornamental foliage plants ever introduced. The plant is of erect habit, with closely set, spreading leaves, which are yellowish-green, marbled and irregularly, and transversely banded with dark-green and silver-gray in alternate straight bands. It has received numerous premiums at the floral exhibitions, and is without doubt one of the most ornamental plants.

\$2.00 to \$5.00 each.

THE CACTUS DAHLIA (D. JUAREZI).

This is decidedly the grandest novelty of the last year, and altogether a most remarkable flower, — remarkable for its peculiar and cactus-like shape, and splendid from the size of the flower and glowing brightness of its color, — so closely resembling the cactus as to justify the name. It grows rapidly, rather tall, and blooms freely. It is such a novelty that the flowers sold in New York last autumn at twenty-five cents each. It is, undoubtedly, one of the most decorative plants.

50c. each; \$4.50 per dozen.

NEW SINGLE DAHLIAS.

(READY MAY 10.)

The introduction of these new single dahlias has created quite a sensation among English cultivators. They have been exhibited extensively, and have been the admiration of all. The profusion of bloom and the graceful habit of the flowers — with their value for cutting, as well as decoration — have rendered them great favorites.

Alba. White, fine for cut flowers.
Cervantesi. Orange, yellow centre.
Coccinea. Dark scarlet, fine.
Crimson Mexicana. 50c.
Lutea. Pure yellow, with darker centre.

Mulberry. Velvety maroon and purple, 50c.

Paragon. Rich velvety maroon.
Scarlet Gem. Finely formed, orange red.
Yellow Gem. Clear pale yellow.

30c. each, except those noted; \$3.00 per dozen.

NEW SHOW DAHLIAS.

(READY MAY 10.)

The following are new varieties introduced last year, and include some of the most prominent exhibition sorts: —

Cyprus. Pale orange and amber.
Cyrilla. Yellow, tipped white.
Ethel Britton. White, edged purple.
Fred. Smith. Lilac, striped purple.
Helen McGregor. White, tipped rosy purple.
Jessie McIntosh. Red, white tip.
Lord Chelmsford. Dark maroon.

Mr. Sibbald. Primrose, edged lake.
Mrs. Hodgson. Yellow, edged crimson.
Miss Cannell. White, tipped pink.
Mrs. Browning. Yellow, tipped white.
Mr. J. C. Reid. Light orange, large.
Red Gauntlet.
Triumphant. Rosy purple.

30c. each; \$3.00 per dozen.

LEMOINE'S DOUBLE DELPHINIUMS.

Seedling plants of Lemoine's Delphiniums, the largest and finest collection in Europe. Selected expressly for us from his best varieties when in bloom, and will undoubtedly produce some splendid flowers.

30c. each; \$3.00 per dozen.

ECHEVERIA HOVEYI.

A seedling raised by us, and as striking as it is exquisite in colors. It forms a fine rosette in its habit of growth, and all the bluish leaves are elegantly striped their entire length with cream and pink. As a decorative plant for pot culture it is unique.

50c. each; \$4.50 per dozen.

EUCARIS AMAZONICA.

One of the loveliest of flowering plants, blooming two or three times a year, producing long stems terminated with five or six pure white flowers, four inches in diameter, and very fragrant. It requires a warm temperature and plenty of moisture. The flowers are in demand for bouquets.

50c. each; \$4.50 per dozen.

Strong flowering bulbs, \$1.00 each; \$50 per 100.

EULALIA JAPONICA ZEBRINA.

A novel and beautiful grass, the leaves of which are variegated in a transverse manner with creamy-white. It grows four to six feet high, and forms one of the most unique and graceful plants. The flower spike makes a handsome plume, and if carefully dried will last a long time. It grows freely, and is entirely hardy.

75c. each; large plants, \$2.00 each; small plants, 50c.

NEW DOUBLE GERANIUMS.

Four of the finest new varieties with enormous trusses of flowers.

Berthelot. Color solferino violet, with deeper spots on the upper petals.

Etendard. A splendid kind of a dark maroon with fiery upper petals.

L'Abbe Gregoire. Large trusses of dark amaranth flowers.

Paul de St. Victor. Enormous trusses of carmine flowers;
50c. each.

CANNELL'S ZONALE GERANIUMS.

Joyful. Light magenta, with distinct edging of orange-scarlet; flowers large.

Mrs. Moore. Pure white, with a ring of scarlet round a small white eye.

New Guinea. Orange-yellow; two shades brighter than Guinea.

Right-a-Head. Dark-crimson; upper petals shaded with scarlet.

Salmon Rienzi. A most beautiful salmon color, of great size and substance.

Wheel of Fortune. Soft rosy-scarlet, petals very broad, fine-shaped flowers.
25c. each; \$2.25 per dozen.

NEW DOUBLE IVY-LEAF GERANIUMS.

Lucinda. Clear lavender rose.

Rosette. Soft rose, shaded with mauve.

Oliver. Mauve-colored flowers.

Vesta. Delicate blush-pink and crimson.

30c. each.

NEW GOLDEN BRONZE GERANIUM, EMPEROR OF RUSSIA.

A most brilliant and well-marked variety, very dark zone and intense yellow edge.
40c. each; \$4.00 per dozen.

GERANIUM, FREAK OF NATURE.

NEW ONAMENTAL FOLIAGE GERANIUM, FREAK OF NATURE.

An improvement on Happy Thought. Foliage much smaller, habit dwarf and branching; centre of leaf pure white. Novel, distinct and wonderfully attractive.

30c. each; \$3.00 per dozen.

DR. DENNY'S DOUBLE GERANIUMS.

These varieties were all contained in the *first* and second prize exhibits at the London Pelargonium Society's Show, and four of them awarded first-class certificates. They have all the excellent qualities of Dr. Denny's seedlings, — dwarf and free flowering: —

Charming. A bright blush magenta.
Constancy. A lavender magenta.
Dauntless. Very rich dark scarlet.
Empress of India. Salmon tinted white.
Enchanting. Very brilliant magenta.
Fancy. Beautiful soft orange-scarlet.
Gorgeous. Large brilliant scarlet.

Hopeful. Very dark magenta.
Illuminator. Brilliant scarlet.
Pioneer. Beautiful dark cherry.
Progress. Dark scarlet.
Perfection. Fine orange-scarlet.
Refinement. White, edged magenta.

30c. each; \$3.00 per dozen.

NEW DOUBLE GERANIUMS.

Duchess of Connaught. Pure white, fine form and dwarf habit.
Fright. Distinct variegated flowers, new and novel.
Lord Beaconsfield. Beautiful double scarlet; dwarf habit and free bloomer.
Mrs. A. Latty. Pink, clear white centre.

30c. each.

CARTER'S NEW ZONALE GERANIUMS.

These are new and beautiful varieties, with very large flowers.

Edith May. Salmon, large white eye.
Fanny Thorpe. Mottled salmon.
Fanny Catlin. Salmon; large white eye.
John Wakefield. Deep rich crimson.

John Tullett. Pure light scarlet.
Lizzie Smith. Beautiful deep pink.
Leone Dare. Beautiful clear salmon.
Mary Lee.
Sultan. Large scarlet.

30c. each; \$3.00 per dozen.

DR. DENNY'S NEW WHITE GERANIUM.

Prima Donna. One of the finest whites ever produced.
 50c. each; \$4.50 per dozen.

GESNERA MACRANTHA.

A splendid plant, with pale green, velvety foliage, and spikes of very large, brilliant scarlet flowers. A superb show plant.

50c. each.

HIGGINSIA GHIESBREGHTI VARIEGATA.

A beautiful foliage plant, with dark bronzy leaves, streaked and marbled with white; very ornamental.

50c. each.

HYACINTHUS CANDICANS.

This new and elegant summer or autumn flowering bulb is one of the most valuable plants of recent introduction. It grows from three to five feet high, and the stems are terminated with spikes of twenty to forty bell-shaped flowers of snowy whiteness, somewhat resembling *Lapageria alba*. It is hardy, with the protection of a few leaves; blooms in September.

20c. each; \$2.00 per dozen.

LILIUM HARRISII.

This Lily is a most remarkable improvement upon the *L. Longiflorum*, not only in the size of the individual flowers, but in the habit of producing several upon one stem, and its earliness and precocity, the smallest bulb flowering profusely the first year. It also blooms two or three times during the year. It grows from ten to twenty inches high, and often produces from twenty to thirty flowers opening at one time.

\$1.00 each.

HYACINTHUS CANDICANS. (See page 8.)

LILIUM FLORIBUNDUM.

This is the Bermuda Lily, so called, very similar to Harrisii. It has the same habit, and produces from twenty-five to fifty flowers on one plant.
50c. to \$1.00 each.

NEW LILY, LILIUM BATEMANII.

A new Japanese species, growing three to four feet high, producing ten to twenty richly colored unspotted flowers of a bright apricot color; very beautiful.
\$1.00 each.

LAPAGERIA ALBA.

This rare and lovely variety of the Lapageria produces numerous fine, large, bell-shaped flowers of a waxy white. Nothing can be more beautiful.
\$5.00 to \$10 each.

MACKAYA BELLA.

This beautiful plant forms a handsome shrub with glossy foliage and branching habit. The flowers are bell-shaped, and have a pale-lilac corolla two inches long, the throat most distinctly pencilled with purple veins. These appear in large, drooping panicles, and in such profusion as to form one dense mass of bloom.
50c. each; \$4.50 per dozen.

OLEARIA HAASTI.

A New Zealand plant of neat, shrubby, myrtle-like habit, with silvery-green foliage, the terminal shoots entirely covered with fragrant white flowers, which are very attractive and highly ornamental.

50c. each.

BEAUTIFUL BLUE WATER LILY.

Nymphaea Cœrulea. This is the famous Blue Lily, or Lotus, similar to our native pond Lily, except in color. The flowers measure 5 to 7 inches in diameter, of the brightest cerulean blue. It can be easily grown in large, shallow pans in the greenhouse, or in the open air in summer, flowering freely and abundantly from June to December. A constant succession of lovely blue lilies for six months.
\$2.00 each; large plants, \$3.00 to \$5.00.

NEW RED WATER LILY.

Nymphæa Sphærocarpa. This is a new and beautiful rose-colored Lily from Sweden, perfectly hardy, and a great acquisition.
\$5.00 to \$10.00 each.

PHYLLANTHUS ROSEA PICTUS.

A plant of free growth and pretty habit, with handsome variegated foliage. Some of the leaves are bright crimson, some cream color, and others bronze, with blotches and spots of white or rose. It is a fine addition to our variegated-leaved plants.
50c. each.

NEW EARLY DWARF PHLOXES.

These are entirely new varieties, raised by hybridization between the old subulata, or moss-pink, and other early dwarf sorts. They grow only a foot high, and are completely covered all the spring with panicles of flowers, somewhat in the way of Phlox Drummondii. They are free growing, perfectly hardy; and one of the most valuable acquisitions to our gardens. The following embrace a variety of colors:—

Aldaboroughensis.

Bride.

Compacta.

Fairy.

Grandiflora.

Pallida.

Perfection.

Vivid.

30c. each; \$3.00 per dozen.

NEW REGAL OR DOUBLE PELARGONIUMS.

This name is applied to a splendid group of Pelargoniums, with flowers of very large size, having an extra number of petals. They are very rich and showy, and should have a prominent place in every collection.

Beauty of Oxtou. Rich dark maroon with white margin.

Captain Raikes. Rich crimson with blush-white margin.

Queen Victoria. Rich vermilion, broadly margined with white.

40c. each; \$4.00 per dozen.

NEW DOUBLE YELLOW PRIMROSE.

Cloth of Gold. A new, large, and beautiful double yellow variety, introduced by Messrs. Carter & Co., of London, and received first-class certificate.
30c. each; \$3.00 per dozen.

NEW DOUBLE CHINESE PRIMROSES.

The following are new and remarkably fine double varieties of the Chinese primula, of very vigorous habit, and flowers nearly as large as pinks, in very large, branching clusters. Some of the colors are entirely new and very beautiful.

Blushing Beauty. White, suffused with rose; fine for cut flowers.

King of Purples. Rich, fine purple, free grower; vigorous and splendid flowerer.

Miss Eva Fish. Rose lilac, melting into blush, with white margin; extra large.

Mrs. Eyrie Crab. Beautiful white, spotted with red. A splendid variety.

\$1.00 each.

NEW SALVIAS.

Betheli. A very handsome dwarf, free-growing and free-blooming variety, with spikes of large flowers of the brightest rose.

Pitcheri. Color intense blue; flowers set close on the spikes; blooming abundantly, furnishing the most brilliant blue flowers for cutting for bouquets.

Farinacea. A very pretty variety, growing two feet high, and covered throughout the summer with spikes of pale-blue flowers. Fine for vases.

Mons. Isancson. A sport from *S. splendens*, with beautiful striped red and white flowers.
25c. each; \$2.25 per dozen.

NEW DOUBLE POINSETTIA (PULCHERRIMA PLENA).

This new double variety of the Poinsettia differs from the old Pulcherrima in having a double or quadruple quantity of its brilliant scarlet bracts. After the first ones are full size, another lot of smaller ones appears, springing from the base, and making one dense head of scarlet leaves; it also lasts a much longer time in perfection.

75c. to \$2.00 each.

MAGNIFICENT NEW COLEUS.

We shall offer in May the remarkable collection of Seedling Coleus raised by the city of Boston, and planted out in the Public Garden last year, where they were so much admired. We have made such arrangements that we can offer a list of eighteen of the most distinct and choice varieties. These seedlings comprise the most marvelous combination of colors of any yet produced.

The collection of eighteen varieties, \$3.00.

NEW SCENTED TROPÆOLUM, CANARIENSE IMPROVED.

A new bright-yellow flower, with a dark spot on each petal, deeply fringed on the edge. Strong grower and fragrant.

30c. each; \$3.00 per dozen.

NEW DOUBLE TROPÆOLUM, HERMINE GRASSHOFF.

Rich orange-scarlet flowers, two inches in diameter; regular form, and fine for cut flowers.

30c. each; \$3.00 per dozen.

CANNELL'S NEW VERBENA, "STARS AND STRIPES."

Sent to us by Mr. Cannell as the most remarkable verbena ever produced, both in the size of the truss, as well as flowers, and the distinctness of colors, which suggested the name of "Stars and Stripes."

30c. each; \$3.00 per dozen.

GENERAL COLLECTION OF PLANTS.

ABUTILONS.

Erect-growing greenhouse plants, from two to six feet high, flowering during winter and spring, also in summer, in the open ground. The flowers are bell-shaped and pendulous, and are produced in abundance from the axils of the leaves.

Aureum. Flowers large, deep yellow, fine.

Aureum maculatum. Foliage variegated.

Alba maculatum. White, spotted foliage; 25c.

Boule de Nieve. Pure white.

Canary. Pale lemon or canary color.

Darwini tessellatum. Foliage, mottled yellow.

Duc de Malakoff variegata. Spotted foliage.

Insignis. White, striped with crimson; 50c.

Mesopotamicum var. Blotched gold.

Rosæflorum. Brilliant rose color.

Rosy Morn. Clear, soft rose; 25c.

Thompsoni. Mottled, golden-yellow.

John Thorpe. Yellow; 25c. each.

Snowball. White; 25c. each.

15c. each, except those noted; \$1.50 per dozen.

ACHYRANTHES.

All the Achyranthes are beautiful plants, and now are almost indispensable for bedding purposes, either in masses or in the ribbon style, their brilliant tinted leaves forming a marked contrast with all other plants.

Acuminata. Blood red, mottled crimson.

Acuminata aurea. Yellow and green.

Aureus reticulatus. Light green, with a network of golden yellow.

Emersoni. Maroon and crimson.

Gilsoni. Carmine, stems pinkish violet.

15c. each: \$1.50 per dozen.

ACHYRANTHES WALLISI.

An entirely new and very beautiful species. It is much dwarfer and more compact in growth than *A. Verschaffeltii*, and the leaves, which are round, are also smaller and of a dark blood-purple, having an intense metallic tint, very brilliant in the sun. It has proved one of the finest plants for ribbon beds and masses of dark color.

15c. each; \$1.50 per dozen.

ACHIMENES.

Diadem. Magenta shaded with carmine.

Harry Williams. Bright cherry.

Lady Littleton. Magenta, yellow eye.

Celestial. A very fine blue flower.

Georgiana Discolor. Beautiful variety.

Unique. Gray-pink and magenta.

Also twenty-five of the older and most beautiful varieties.

25c. each; \$2.50 per dozen.

ACALYPHA MARGINATA.

Somewhat in the style of *A. Wilkesiana*, but the leaves are much brighter red, and margined with bronzy crimson. It is a most beautiful summer bedding plant.

30c. each; \$3.00 per dozen.

ACALYPHA WILKESIANA.

A showy plant, with variegated foliage; leaves large, blotched, and streaked with chocolate, crimson, and bright red. Fine for bedding out.

30c. each; \$3.00 per dozen.

AGAPANTHUS (AFRICAN LILY).

Showy and very handsome plants for the greenhouse, parlor, or garden, producing large heads of blue or white flowers on tall stems, which remain in perfection a long period. Wintered in the cellar or any cool place free from frost, and bedded out, they bloom all the latter part of summer.

50c. each; \$4.50 per dozen.

AGAVES, CENTURY PLANTS.

The Agaves are specialties of culture, and our collection embraces over sixty species. No plants are more decorative, or more effective for the conservatory in winter, or lawn or garden in summer. We possess many fine large specimens of the older kinds, the prices of which will be given on application.

50c. to \$2.00 each; \$4.50 to \$12 per dozen.

AGERATUMS.

These are very handsome bedding plants, producing a profusion of bright blue flowers throughout the whole summer, and especially desirable for bouquets and cut flowers in winter.

Imperial Dwarf. Blue flowers.

Mexicanum. Flowers, light blue; two feet high.

Mexicanum variegatum. Beautiful foliage edged with white.

Prince Alfred. A pretty variety, with bluish-lilac flowers.

Tom Thumb. Six inches, with porcelain-blue flowers.

15c. each; \$1.50 per dozen.

AKEBIA QUINATA.

A perfectly hardy and beautiful climbing plant, growing fifteen feet high, with tri-foliate leaves and dark-brown flowers; highly fragrant. We can recommend this as one of the best hardy climbers.

25c. each; \$2.50 per dozen.

ALLAMANDA HENDERSONI.

This remarkably fine variety is one of the best yet introduced. The flowers are golden-yellow, very large, finely formed, thick and wax-like, and tinged with brown on the outside; as an exhibition plant or hothouse climber it is unequalled.

50c. each; \$4.50 per dozen.

ALTERNANTHERAS.

These are all beautiful dwarf plants, of a compact habit, growing about six inches high, and admirably adapted for edgings to flower-beds or ribbon lines, their beautifully variegated foliage of crimson, purple, yellow, pink, and green forming rich masses of color, always attractive, and highly ornamental.

Aurea. See p. 1.

Amsena. Yellow, brown, and rose.

Latifolia. Yellow, pink, and orange.

ALOYSIA CITRIODORA (LEMON VERBENA).

Always admired and prized for the delicate odor of its graceful and neat foliage; invaluable for bouquets.

15c. each; \$1.50 per dozen; large plants, 25c. each.

VARIEGATED SWEET ALYSSUM (KONIGA).

One of the neatest growing and best of our dwarf variegated plants for beds or ribbon lines. It maintains its white variegation under the hottest sun. Flowers freely all winter.

15c. each; \$1.50 per dozen.

DOUBLE WHITE SWEET ALYSSUM.

The double white is one of the most beautiful plants, being of dwarf, compact growth, and covered throughout the whole summer, even up to November, with its masses of snowy blossoms. Valuable for cut flowers, as its blossoms do not drop.

15c. each; \$1.50 per dozen.

AMARYLLIS, PRINCE OF ORANGE.

A free-flowering variety, with clusters of large, brilliant scarlet flowers.

\$1.00 each; \$9.00 per dozen.

Seedlings, of a great variety of colors, some deep crimson and scarlet, others white, striped with scarlet. All fine kinds, raised from hybridized seeds.

\$1.00 to \$2.00 each.

AMPELOPSIS VARIEGATA, OR TRICOLOR.

A variety of the woodbine, the leaves of which are beautifully variegated with white, pink, and green, and brilliant blue berries.

Ampelopsis quinquefolia, or Virginia Creeper.

25c. each; \$2.25 per dozen.

AMPELOPSIS VEITCHII.

A new species of woodbine, from Japan, which has proved entirely hardy. It grows as rapidly as the old Virginian Creeper, and attaches itself to any wall or fence. The leaves are small, and at first of an olive-green brown color, changing to bright scarlet in the autumn. It is one of the finest of our hardy climbers.

25c. each; \$2.25 per dozen; large plants, 50c.

ANTHURIUM CRYSTALLINUM.

This truly magnificent plant has fine large leaves of a rich, dark olive-green color, the midrib and principal veins being bordered on each side with a bright silvery-white band. The young leaves are of a rich bronzy shade. It is without question one of the most effective plants of recent introduction.

\$1.00 to \$2.00 each.

ANANASSA SATIVA VARIEGATA.

This is a very beautiful and showy Variegated Pineapple, always admired for the graceful habit of its long and beautiful colored leaves, distinctly striped with bright yellow, and often tinged with pink. Admirable in the open air in summer.

\$2.00 to \$5.00 each.

ANTHURIUM SCHERZERIANUM.

ANTHURIUM SCHERZERIANUM.

One of the most beautiful and striking plants of recent introduction, producing large, brilliant, scarlet, banner-like flowers at all seasons, each flower remaining in bloom two or three months. This beautiful plant should be in every collection.

\$1.00 to \$2.00 each.

ANTHERICUM VITTATUM VARIEGATUM.

Is highly ornamental and fine-growing plant, with long green leaves, handsomely striped with pure white, producing tall spikes of star-shaped flowers.

30c. each; \$3.00 per dozen.

ARDISIA CRENULATA.

A very ornamental greenhouse plant, with dark evergreen foliage, producing clusters of brilliant red berries.

50c. each; \$4 50 per dozen.

ARISTOLOCHIA SIPHO (DUTCHMAN'S PIPE).

A vigorous and rapid-growing climber, attaining the height of twenty feet, perfectly hardy, with very large foliage and curious flowers, resembling the bowl of an old-fashioned pipe.

50c. each; \$4.50 per dozen. Large plants, \$1.00 each.

AQUILEGIA CHRYSANTHA.

AQUILEGIA CHRYSANTHA.

A new, hardy, and showy Aquilegia, with pale yellow flowers; grows three feet high, blooming freely and profusely all summer. It is a decided acquisition.

25c. each; \$2.50 per dozen.

ASTILBE JAPONICA (SPIRÆA JAPONICA).

This is one of the prettiest of hardy herbaceous plants, growing about eighteen inches high, with neat foliage and dense spikes of pure white, feather-like flowers. For winter flowering and for bouquets it is very valuable, the foliage and flowers being alike ornamental.

30c. each; \$3.00 per dozen; second size, \$2.00 per dozen.

DOUBLE PÆONY-FLOWERED AND WASHINGTON ASTERS.

(Ready May 20.)

These varieties have now been brought almost to perfection. The flowers are very large, double in the centre, almost globular, and they are produced in such great profusion as to cover the plant. No garden can be complete without them, blooming as they do all through the autumn.

50c. per dozen.

AZALEA INDICA.

Are specialties of culture. Our collection contains one hundred and fifty of the very finest varieties, including all the leading sorts and new kinds of recent introduction.

25c. to 50c. each; \$2.00 to \$4.50 per dozen.

30c. each; \$3.00 per dozen.

BEGONIA REX, ORNAMENTAL-LEAVED.

One of the most beautiful foliage plants, and admirably adapted for baskets, Wardian cases, and ferneries, or for shady recesses in summer. The leaves are very large, variegated or zoned, with an attractive metallic surface. Ten varieties.

30c. each; \$3.00 per dozen.

NEW TUBEROUS-ROOTED OR BEDDING BEGONIAS.

This is a new class of Begonias, produced since the introduction of *B. Sedeni*, and particularly adapted for summer bedding. They are tuberous-rooted, remaining dormant in winter, and should be planted out in May in the same manner as the gladiolus. They grow readily, attaining the height of twelve or fifteen inches, and are covered with their very large flowers from July until frost.

Fine mixed seedlings, 25c. each; \$2.25 per dozen.

BEGONIAS.

These are popular and very handsome plants, easily grown, and adapted for pot culture or for bedding out for summer blooming. They are also very valuable for cut flowers in winter, their neat foliage and pretty blossoms giving variety as well as beauty to any bouquet. They grow best in a temperature of 65° during winter.

Argyrostigma. Flowers pink.

Digswelliana. Flowers rose color.

Fuchsioides. Flowers scarlet.

Souvenir de Barillet. Brilliant red flowers.

Victoria. Green, yellow flowers.

25c. each; \$2.50 per dozen.

CALADIUM ESCULENTUM (CALOCASIA).

Plants with immense leaves, measuring two to three feet long and two broad, and growing four feet high, having a tropical aspect, and admirably adapted for single specimens for lawns.

25c. each; \$2.25 per dozen; large roots, 50c. each, \$4.50 per dozen.

CALADIUM ESCULENTUM.

CALADIUMS.

These are the most beautiful of summer greenhouse plants, unsurpassed in the varied and brilliant markings of their superb foliage, highly decorative, and invaluable for exhibition purposes. They are of the easiest culture, simply potting them in small pots, in a sandy, peaty soil, and starting them in a warm bed, afterwards shifting them into larger pots. When the foliage begins to fade, dry them off and keep them in a warm situation, without water, till March, when they may be repotted and treated as before. Our collection is extensive, comprising upwards of fifty varieties.

25c. to 50c. each; \$2.50 to \$4.50 per dozen.

CALLA ETHIOPICA (EASTER LILY).

An old and favorite plant, which should be found in every collection, growing freely, and producing its large, pure white blossoms all winter.

30c. each; \$3.00 per dozen.

CALLA ETHIOPICA NANA.

A dwarf-growing variety, and with smaller flowers; admirable for bouquets.

30c. each; \$3.00 per dozen.

NEW MONTHLY CARNATION, "SNOWDON."

A very dwarf variety, rarely exceeding one foot high, with flowers of the purest white, and produced in great profusion; valuable for florists.

25c. each; \$2.50 per dozen.

MONTHLY CARNATION, "PETER HENDERSON."

One of the freest-flowering and best of the white Carnations. Flowers large and pure white. Now extensively grown for cut flowers.

25c. each; \$2.50 per dozen.

MONTHLY CARNATIONS.

These are invaluable additions to every garden, either for summer or the greenhouse, or parlor in winter, blooming throughout the year, fragrant and beautiful at all times, and indispensable for bouquets. Great improvements have been made in the new varieties, which now embrace almost every shade of color.

Beauty. Scarlet, veined; fine.

Boule de Nieve. White, large.

Bock's Seedling. Bright pink.

CAMPSIDIUM FILICIFOLIUM.

A very beautiful climbing plant, with delicate fern-like foliage, of easy culture and rapid growth, adapted to the garden or house, and fine for decorative purposes.

25c. each; \$2.25 per dozen.

CAMELLIAS.

These magnificent plants, as well as Azaleas, are specialties of culture, and our collection of several thousand is the largest in the country, including all the finest kinds, and several seedlings never yet equalled, many specimens being fifteen feet high. We cultivate in quantity about twenty-five of the most popular varieties, — Double White, Candidissima, Wilderi, etc.

50c. to \$1.00 each; \$4.50 to \$9.00 per dozen.

CENTAUREA CANDIDISSIMA.

A very showy and ornamental plant, with downy leaves of a clear, silvery hue, forming a compact bush, and admirable for forming lines or groups in contrast with the dark-leaved Coleus or Achyrantes.

25c. each; \$2.25 per dozen.

CENTAUREA GYMNOCARPA.

A plant of the general aspect of the Candidissima, but with more graceful and divided leaves, of a silvery-gray hue, which are slightly drooping.

20c. each; \$2.00 per dozen.

NEW SEEDLING CEREUS OR CACTUS.

The following are varieties of Cereus raised by us, and of the most remarkable beauty, flowering in the greatest profusion, with blossoms ten to twelve inches in diameter. Many of the colors are entirely new, being mauve, pink, salmon, or orange, shaded or tinted with the richest violet.

Exquisite. Orange-salmon, violet tint.

A large collection of all the finest varieties. 30 to 50c. each.

CHINESE CHRYSANTHEMUMS.

The chrysanthemum is now one of the most popular and prized of autumn flowers. The splendid exhibitions which have been made the last two or three years have shown to what perfection they may be grown; and their highly decorative character for the parlor or greenhouse. They have become the fashionable flower, and thousands of cut blooms are now used by the florists during the autumn and winter. They are easily cultivated, grow in any good soil, and bloom profusely.

LARGE-FLOWERING VARIETIES.

CLERODENDRON BALFOURI.

Undoubtedly one of the most beautiful of hothouse climbers. The flowers are brilliant scarlet, and their effect is greatly increased by being surrounded by a bag-like calyx of pure white. The flowers are produced in large panicles, five or six inches broad, and generally drooping. It blooms continuously.

30c. each; \$3.00 per dozen.

CISSUS DISCOLOR.

Unsurpassed in the rich marbling of its green and velvety purple leaves. It requires a high temperature during winter, but in summer and autumn it grows vigorously, and forms a superb plant. The leaves are beautiful for bouquets or baskets of flowers.
30c. each; \$3.00 per dozen.

COBÆA SCANDENS VARIEGATA.

This is one of the very finest of variegated foliage plants; the variegation is not only distinct, but every leaf is broadly edged, yellowish at first, but becoming white, forming perfect festoons of silver and green, enlivened by its large, purple, bell-shaped flowers.

35c. each; \$3.50 per dozen.

CLEMATIS.

The new varieties of the Clematis are among the most beautiful of our hardy plants. They are naturally climbing plants, but the summer-flowering varieties may be treated as herbaceous plants, allowing them to cover the surface of the ground and pegging down the shoots. There are two distinct classes, one flowering on the old wood, which must not be cut down, and the other producing their flowers on the summer growth, and cutting them down rather strengthens and increases their vigor, inducing them to grow up stronger shoots and larger blossoms. We have classified them as spring or summer blooming.

1. SPRING-BLOOMING CLEMATIS.

Fair Rosamond. Blush white, wine bar.
John Murray. Deep purplish mauve. \$1.00.
Lady Londesboro'. Silver gray, pale bar.
Lord Mayo. Deep, rosy lilac. \$1.00.

Lord Derby. Lavender, anthers purple. \$1.00.

A new and beautiful seedling with medium-sized pure white flowers, produced in great profusion. A superb variety.

\$1.00 each; \$9.00 per dozen.

CLEMATIS JACKMANI.

This is undoubtedly one of the finest of all the numerous varieties. It is entirely hardy, and blooms profusely from June until frost. Its very large, deep blue-purple flowers are highly ornamental.

Strong plants \$1.00 each; \$9.00 per dozen. Second-size plants, 50c. each; \$4.50 per dozen.

CLEMATIS FLAMMULA.

An old but very beautiful species of the Clematis, known as the Virgin's Bower. It is perfectly hardy, grows from ten to twenty feet high, and profusely covered with large clusters of snowy-white, deliciously fragrant flowers.

30c. each; \$3.00 per dozen; large, strong plants, 50c. each.

COLEUS.

The introduction of the Coleus as a decorative plant has changed the aspect of our gardens. By their grand masses of crimson, bronze, and gold or green foliage, effects are produced which no array of the gaudiest flowers accomplishes. For planting in detached groups, or for forming ribbon lines, they are unequalled. Within the last four or five years the production of new kinds between the new species recently introduced has been truly wonderful, bringing out such a diversity of tints, and with such a bizarre arrangement of colors, as was never known in any other plant. Our list comprises all the best.

Amibilis. Light green, yellowish, and pink.
Butterfly. Crimson, golden margin.
Beacon. Blackish purple, crimson veins.
Clown. Mottled crimson and yellow.
Chameleon. Purple, green, and carmine.
Crimson Queen. Brilliant crimson red.
Emperor Napoleon. Dark chocolate maroon.

Superbissima. Dark maroon, purple centre.
T. Meehan. Crimson, shaded brown.
Tessellatum. Marbled; green and yellow.
Verschaffelti. Rich velvety crimson.

10c. each; \$1.00 per dozen.

COLEUS FOR BEDDING.

The following are still among the most valuable for bedding out, being distinct, and retaining their color under the hottest sun: —

Butterfly. Dark crimson, yellow border.
Hero. Dark maroon, nearly black.

Napoleon III. Dark chocolate, nearly black.
Verschaffelti. Rich velvety crimson.

10c. each; \$1.00 per dozen; \$6.00 to \$8.00 per 100.

25c. each; \$2.00 per dozen.

For new varieties see p. 6.

POMPONE OR BOUQUET DAHLIAS.

This new class is highly valuable, and adds to the novelty as well as beauty of a collection. The varieties are distinguished for their profusion of extremely elegant miniature blossoms, some of the size of a ranunculus flower. They are highly decorative, from their compact habit and smaller growth, and the profusion of flowers borne on tall stems above the foliage.

Ardens. Brilliant, light scarlet.
Advance. Orange and crimson.
Burning Coal. Yellow, tipped red.
Col. Sherman. Light crimson.
Cupid. Ochre yellow, bronze tip.
Floribunda. Rich carmine red.
Little Willie. Pale pink.
Linda. Orange.
Prince of Liliputs. Maroon.
Gold Light. Straw color and white.

Glow-Worm. Yellow, tipped red.
Lilia. Rich carmine, tinted rose.
Little Elizabeth. Rosy lilac, tipped.

20c. each; \$2.00 per dozen; \$5.00 to \$10 per 100.

EPIPHYLLUM TRUNCATUM.

Beautiful winter-flowering plants, blooming profusely from November to February, and highly decorative, as well as useful for bouquets.

30c. each; \$3.00 per dozen.

ERANTHEMUM ATROPURPUREUM.

A striking and conspicuous plant, with large, thick, purple-crimson leaves, glossy and highly attractive, growing as freely as the Coleus, and will prove one of the most effective bedding plants.

30c. each; \$3.00 per dozen.

ERANTHEMUM TRICOLOR.

Similar to the last, except that the leaves are elegantly blotched and striped with rosy pink.

30c. each; \$3.00 per dozen.

ERIANTHUS RAVENNÆ.

A hardy ornamental grass, growing ten feet high, similar to the pampas grass; very showy for lawn decoration. It grows rapidly, and young plants bloom freely, although it does not attain its massive proportions and beauty for two or three years.

25c. each; \$2.25 per dozen.

ERYTHRINA CHRISTA GALLI OR CORAL TREE.

A magnificent plant, growing three to four feet high, and covered with gorgeous spikes of very large, blood-crimson flowers, one to two feet long. Requires the same treatment as the Dahlia.

50c. each; \$4.50 per dozen.

EUONYMUS RADICANS VARIEGATUS.

A dwarf-growing and very beautiful plant, with slender shoots, and small box-like foliage, deep green, edged with white, and bright pink on the under side. It may be grown as a climbing plant, like the Ampelopsis, or as a dwarf for edgings; it is quite hardy, and a very beautiful plant.

20c. each; \$2.00 per dozen.

EUONYMUS LATIFOLIUS ELEGANTISSIMUS.

The most distinct of this group; of compact habit, with green and gold leaves, which retain their variegation. A fine acquisition.

30c. each; \$3.00 per dozen.

EUPHORBIA JACQUINIFLORA.

A fine hothouse plant, flowering in winter, producing long, wreath-like spikes of very brilliant orange-scarlet blossoms.

30c. each; \$3.00 per dozen.

EUPHORBIA SPLENDENS.

A spiny and curious looking plant, blooming abundantly at all seasons, producing scarlet clusters of flowers; very valuable for button-hole bouquets.

25c. each; \$2.50 per dozen.

EURYA LATIFOLIA VARIEGATA.

One of the most beautiful of variegated half-hardy plants. The habit is similar to the Camellia, and the leaves, which are about the same size, are distinctly edged with silvery white. As a specimen plant it is unsurpassed.

50c. each; \$4.50 per dozen. Larger size, \$1.00 each.

EULALIA JAPONICA VARIEGATA.

A new, distinct, and very ornamental grass, of easy culture, and said to be hardy. The leaves are long and narrow, and striped white and green. The flower stem is from four to six feet high, and is terminated with a cluster of flowers, the flowers being arranged on separate stems, but forming a large head or panicle of blossoms, which, from their silky texture, have a beautiful feathery appearance, and when cut retain their beauty for a long period.

50c. each.

DOUBLE WHITE FEATHERFEW (PYRETHRUM).

One of the most popular and admired of summer bedding plants, producing an abundance of double white flowers all summer.

20c. each; \$2.25 per dozen.

FERNS.

These beautiful plants are made a specialty of culture, and our collection comprises more than one hundred of the finest kinds, suitable for the greenhouse, hothouse, or for fern baskets and Wardian cases. GLOXINIAS.

Gloxinias are a beautiful group of plants, with large, foxglove-shaped flowers of an infinite variety of tints, and produced in great profusion from the base of a deep, rich-green, velvety foliage. They flower all the summer, and are the finest ornaments of the greenhouse from June to September. The bulbs may be potted in March, and, when done blooming, may be placed away during winter in any warm place till the season of growth commences, keeping them quite dry.

Fine named varieties, 50c.

Extra fine seedlings, beautiful colors, 30c. each ; \$3.00 to \$4.00 per dozen.

SPLENDID GLADIOLUS.

These are now justly considered as the most showy and splendid of summer-blooming bulbs, producing tall spikes of various colored flowers, from pure white to deep crimson or purple, shaded, striped, spotted, and edged. They are easily cultivated, planting the bulbs in May or June, and flowering in August and September. Our collection includes all the finest French varieties, and a collection of hybrid seedling, fully equal to many of the choice-named kinds.

Named varieties, 15 to 25c. each; \$1.50 to \$2.50 per dozen.

Choice seedlings, 75c. to \$1.00 per dozen; \$4.00 to \$6.00 per hundred. For choice-named varieties, see Seed Catalogue.

DELPHINIUMS. (See page 6.)

DOUBLE HOLLYHOCK.

DOUBLE HOLLYHOCKS.

Few plants are more showy than the Hollyhock, and few new plants can compare in attractiveness with this old favorite. Our stock is raised from the very finest double flowers and embraces all colors.

25c. each; \$2.25 per dozen.

HYDRANGEA, THOMAS HOGG.

This new Hydrangea is now very generally known, and it has proved to be a valuable acquisition either for the greenhouse or summer decoration of the garden, growing very freely, and producing immense heads of pure white flowers. With a slight protection in winter it has proved quite hardy.

25c. each; \$2.25 per dozen. Large plants, 50c. to \$2.00 each.

HYDRANGEAS.

All beautiful plants, producing very large heads of pink or blue flowers.

Hortensis. The well-known common and beautiful kind.

Stellata Prolifera. Pink flowers, double in large clusters. 50c.

30c. each, except those noted; \$3.00 per dozen.

HYDRANGEA PANICULATA GRANDIFLORA.

There is little hesitation in saying that this is altogether the finest hardy shrub recently introduced. It grows two or three feet high, and all the shoots, even on the smallest plants, are terminated with an immense panicle or truss of white flowers six to ten inches long, which continue in bloom from August to October.

50c. each; large plants, \$1.00 each.

Smaller size, 25c. each; \$2.25 per dozen.

IMATOPHYLLUM VAN HOUTTEI.

One of the most magnificent of greenhouse plants. Similar in growth and color of the flowers to *I. Miniatum*, but with the individual flowers twice as large, and the heads of flowers of enormous size. One of the most showy plants recently introduced.
\$2.00 to \$3.00 each.

IMATOPHYLLUM MINIATUM.

A superb plant, with the habit and general aspect of the *Amaryllis*, having very dark green leaves, and very large corymbs or clusters of conspicuous, buff-orange or light flame-colored flowers, with a pale centre, blooming twice a year, and forming one of the most effective and beautiful plants; entirely novel in color.
50c. to \$2.00 each.

HOYA CARNOSA.

Known as the Wax Plant, with thick, fleshy leaves and bearing umbels of bluish-white flowers, resembling wax. It grows rapidly, and is admirably adapted to parlor culture or the greenhouse; continues in bloom a long time.
30c. each; \$3.00 per dozen.

IVY, ENGLISH.

Valuable for the parlor or greenhouse; growing freely in the shade.

Canariensis. The Irish variety.

Regneriana. Large, roundish leaves.

25c. each; \$2.25 per dozen.

GERMAN IVY.

A rapid-growing and handsome plant, with ivy-shaped, deep-green leaves, admirably adapted for covering a wall or trellis in summer, or for baskets or vases.
20c. each; \$2.00 per dozen.

NEW GERMAN IVY, SENEIO MACROGLOSSIS.

A new variety, with leaves closely resembling the common Ivy. It is a vigorous grower, and a fine plant for baskets.
25c. each; \$2.25 per dozen.

CAPE JESSAMINE (GARDENIA).

Well known for their large, double, fragrant, white flowers, produced all the autumn.
50c. each; \$4.50 per dozen.

JASMINUM GRANDIFLORUM.

One of the most popular and valuable plants, blooming continuously from October to May. Flowers pure white and deliciously fragrant; admirable for bouquets. Grows freely either in the parlor or greenhouse.
25c. each; \$2.25 per dozen.

LAPAGERIA ROSEA.

Nothing can exceed the beauty of this most charming of all the climbing greenhouse plants. It has slender, twining stems, enriched with small glossy, evergreen foliage, which produces in great abundance very large, brilliant, deep carmine-crimson, bell-shaped flowers, four inches long, more or less spotted on the inside; the flowers remain in perfection two or three weeks, and it blooms the greater part of the year. It is admirably adapted to conservatory culture, flourishing best in a cool temperature and partial shade in summer; grown in pots, on a balloon trellis, it is a superb plant.
\$1.50 each; \$15.00 per dozen. Large plants, \$3.00 to \$5.00 each.

LANTANAS.

The Lantana is now a universal favorite, and rivals the Verbena as a bedding plant, blooming abundantly from July until frost. It grows freely, forming dwarf, compact bushes, twelve to eighteen inches high, profusely studded with neat corymbs of snow-white, pink and rose, or brilliant orange and scarlet flowers. Next to the Geranium it is one of the most valuable plants for beds or makes. The newer varieties are very dwarf and compact, and entirely covered with flowers. Twenty beautiful varieties.
20c. each; \$2.00 per dozen.

JAPAN LILIES.

These superb flowers are usually planted in the autumn, but we generally keep a full supply for spring planting. The bulbs keep sound and fresh, and bloom freely. Our autumn catalogue of bulbs enumerates all the fine kinds in cultivation. The following are recommended for planting at this season, the others in the autumn only:—

		Per Dozen.
Lilium Auratum.	The magnificent golden lily50 \$5 00
Lanceifolium Album.	Pure white; beautiful50 5 00
Rubrum.	White, with crimson spots25 2 50

	This is much the finest of all the lilies	\$1 00 \$9 00

MARANTAS.

The Marantas are all showy and beautiful plants, with large ornamental foliage, requiring the temperature of the hothouse. *M. Zebrina* is the most robust and showy; but the others are more unique in color, though less massive in their growth. Our collection comprises twenty of the best varieties.

50c. to \$1.00 each.

MAURANDYAS.

COBÆA. (See p. 21.)

MAURANDYAS.

Exquisite, slender climbing plants, with graceful foliage and handsome white, pink, or purple trumpet-shaped flowers. Three varieties: white, rose, and purple.

20c. each; \$2.00 per dozen.

MESEMBRYANTHEMUM CORDIFOLIUM VARIEGATUM.

One of the most admired and beautiful of variegated foliaged plants for summer bedding. The growth is dwarf, compact, and dense, and the fleshy, heart-shaped leaves are distinctly margined with creamy white, forming a complete carpet of soft, silvery foliage, which covers the entire surface of the ground.

15c. each; \$1.50 per dozen; \$10 per hundred.

MYRSIPHYLLUM ASPARAGOIDES (SMILAX).

One of the most delicate and beautiful of all climbing plants, growing rapidly, and covering a trellis in a few weeks. The foliage is small, smooth, and glossy, and for bouquets or wreaths, or for table decoration, surpasses every other plant. It is cultivated in large quantities for florists.

20c. each; \$2.00 per dozen; \$8.00 per hundred.

CRAPE MYRTLE (LAGERSTREEMIA).

One of the finest half-hardy shrubs, blooming abundantly planted out in the open ground, and invaluable for its great clusters of elegant pink flowers.

30c. each; \$3.00 per dozen. Large plants, \$1.00 to \$2.00 each.

NERIUM (OLEANDER).

Plants of great beauty, and deserving of more extensive cultivation, either in pots or open ground; flowering abundantly all summer. Four fine varieties.

50c. each; \$4.50 per dozen.

PEARL TUBEROSE. (See p. 40.)

MYRSIPHYLLUM, OR SMILAX. (See p. 32.)

ORCHIDS.

Those lovely plants are yet but little cultivated; undoubtedly, in a great degree, from the general impression that they are difficult to manage, requiring special care and a house expressly for them. Nothing is more erroneous. Many of the most beautiful kinds are no more difficult to grow than ordinary hothouse plants, and some of them flourish in a cool greenhouse. Our collection has been greatly enlarged by the addition of several hundred plants, and now comprises about one hundred of the most showy and beautiful kinds, many of them fine for cut flowers.

Ten orchids, our selection, \$12.00. Ten orchids, choice kinds, \$20.00. Ten orchids, extra kinds, \$25.00. Large and fine specimens of many kinds; price on application.

PANDANUS VEITCHII.

One of the most beautiful plants ever introduced by Messrs. Veitch, and far superior for exhibition or decoration to any other Pandanus. The leaves are light green, beautifully striped with broad bands and lines of pure white, and are gracefully recurved, forming an elegant specimen.

\$1.00 to \$3.00 each.

Pandanus graminæifolius, 30c.

Pandanus utilis 50c.

Pandanus Javannicus var., \$1.00.

PALMS.

These splendid plants are invaluable for summer decoration of the garden, or the conservatory in winter. The hardier kinds grow easily and make fine specimens. Our collection embraces the most desirable kinds. We name a few of the kinds grown in quantities:—

Areca lutescens. \$2.00.

— *rubra*.

Brahea filamentosa.

Cardulovica palmata. \$2.00 each.

20c. each; \$2.00 per dozen.

ROSES.

The increasing demand for beautiful Roses has induced us to give them especial attention, and extend our collection, which now embraces a large number of varieties and the newest kinds. The yearly accessions of new roses is constantly increasing, and though all, undoubtedly, possess merit, only a limited number combine those qualities which render them generally valuable. Our object has been to select only the best and most distinct. Boston roses have a well-known reputation, and the magnificent exhibitions the last few years have enabled us to select only those which have stood the test of the best judges of roses.

Our roses are grown extensively on their own roots, and also in pots, for the convenience of transportation at any season. They are propagated early in the season, and, after a good summer's growth, the hardy kinds are wintered in a frame, ready for planting out in the spring, and flowering through the summer; the tender roses have the same treatment, except in winter, when they are rested in a cool house.

Purchasers leaving the selection to us will get a fine assortment of varieties and often better plants.

NEW IMPORTED ROSES.

50c. each; \$4.50 per dozen.

TRITOMAS.

Splendid, half-hardy plants, with masses of long, narrow leaves, from the centre of which their tall flower-stems, three to five feet in height, are produced in summer and autumn, with large terminal spikes of orange-red and scarlet flowers, each spike a foot or more in length. They are admirably adapted for bedding out, and the brilliant, flame-colored blossoms have a grand effect. They thrive in any rich, light garden soil.

30c. each; \$3.00 per dozen.

DOUBLE TUBEROSES.

These are beautiful, pure white, delightfully scented flowers, produced in long spikes of thirty or forty blossoms, on tall stems about three feet high, and flowering nearly all summer. The bulbs should be planted in pots or boxes, and placed in a gentle heat, where they will soon begin to grow, and in May should be re-potted and plunged in the border, or planted out in the open ground.

Bulbs well started in pots, 25c. each; \$2.25 per dozen. Dry bulbs, 10c. each; \$1.00 per dozen.

DOUBLE TUBEROSE, PEARL.

Best Plants for Ribbon Lines or Groups of Color.

THE continued demand for plants for ribbon lines, or for single beds and masses of color, has induced us to extend our culture of these plants so as to fill all orders, it being no uncommon thing to plant them by the thousand. The showiness and brilliancy of these lines or masses of color form the principal feature of some of our private grounds, and when the right plants are selected and arranged with taste, the effect is wonderful.

The following comprise some of the best plants for this purpose. No order received at 100 rates for less than 12 plants:—

DUTCH BULBOUS ROOTS FOR AUTUMN PLANTING.

IN the Autumn we have an extensive assortment of **HARDY BULBS**, which require to be planted during the months of October and November for early Spring Flowers in the Garden; also, others for House and Greenhouse, and can fill orders for any of the following kinds at that season. Our stock is procured from the very best sources from Holland and elsewhere, and embraces the finest varieties of each class, which have been selected from a great number grown by ourselves for this special purpose, and on this account we recommend those we offer to average much finer bulbs and varieties than are usually offered in this country.

ORNAMENTAL GRASSES.

All these grasses are highly ornamental, and some of the larger-growing kinds especially adapted for massing in beds or for sub-tropical gardening. The smaller-growing sorts are admirable for hanging-baskets and vases. Some of them are perfectly hardy.

- Acorus Variegatus.** Dwarf, erect growth; leaves green and white; hardy.
Aira Cærulea Var. Of erect and graceful habit, with tall flower stems; hardy.
Arundo Donax Variegata. Green and white; grows four to five feet. 50c.
Bambusa Variegata. Dwarf, green and white; very handsome; hardy.
Cyperus Alternifolius. Deep green; very handsome; grows two feet high.
Erianthus Ravennæ. Six to ten feet high; similar to pampas grass; hardy.
Gymnothrix Latifolia. Very showy; four feet. 50c.
Gynierum Argenteum. (Pampas grass.) 50c.
Isolepis Gracilis. Fine for baskets and vases.
Panicum Plicatum Variegatum. Beautifully striped leaves; four feet.
Reineckia Carnea Variegata. Green and white; for baskets.
 30c. each; \$3.00 per dozen, except those noted.

WATER LILIES.

These beautiful and fragrant aquatic plants have been in much demand the last few years, and are now among the most fashionable of summer flowers. They are very easily cultivated, either in the greenhouse or the open air, during the warm season. We have cultivated them largely, particularly the Blue Lily (*Nymphaea caerulea*), and have had them in bloom from July to November. They may be grown in pans five inches deep and eighteen inches in diameter, in good rich soil, one plant in the centre of each pan, filling the pans with water, which should be kept full. The pans may be placed in the greenhouse, or in a frame, where they can be covered cool nights, when they will continue to bloom very late. The lovely White Water Lily (*N. odorata*) may be planted in large tubs or half-barrels, in the open air, using the same rich soil, and keeping the tubs full of water. The Yellow Lily (*N. flava*) may have the same treatment. It is a beautiful flower. See description and price on p. 9.

VEGETABLE PLANTS AND ROOTS.

ASPARAGUS ROOTS.

For a good asparagus bed, the soil should be well prepared, not in the expensive way once thought necessary, but in a thorough manner. Select, if possible, a good sandy loam, which should be well drained, and well manured. If not naturally deep, trench to the depth of eighteen to twenty-four inches, working in the manure which should be six inches thick. When this is done, open shallow trenches six inches in depth, and three feet apart, and in these set the plants about twelve inches apart, spreading out the roots carefully and covering the crowns about three inches deep. The roots may be set out in the fall or in spring, as soon as the ground is in good condition. Five or six rows, fifty feet long, will give a good supply for an ordinary family.

Connover's Colossal. 2-year old roots, \$1.00 per 100; \$8.00 per 1,000.

Grayson's Giant. 2-year old roots, \$1.00 per 100; \$8.00 per 1,000.

Large Red. A fine, large variety; per hundred, \$1.00; per thousand, \$8.00.

CRANBERRY PLANTS.

The two following are the leading kinds for cultivation. Instructions for their culture will be enclosed with each order.

Eaton's Early Black Bell. Ripens very early, fully colored by September 5, very dark red, almost black, medium size, great bearer, good keeper, and the vines entirely hardy.

Mansfield Creeper. This variety is entirely different in growth from all other varieties. It creeps on the ground and takes root from every joint, and bears shoots every two or three inches on the tree, and throws out fresh buds for another year. It is earlier than the Eaton Bell, and both are adapted to upland culture. It is large size, a great bearer, a fine keeper, dark scarlet on one side, white on the other, roundish oval.

Price, 50c. per 100; \$4.00 per 1,000; \$15.00 per 10,000 (10,000 plants to the acre).
